## SUMMARY

React Native developer with 6+ years of experience delivering high-quality mobile applications across multiple projects. Skilled in performance optimization, lint error reduction, and writing custom scripts to streamline codebases. Experienced in collaborating with backend teams on GraphQL contracts and contributing to test automation using Java, Appium, and Jest. Experienced both in mobile application development and web development

## TECHNICAL SKILLS

- **Programming Languages:** HTML5, CSS3, JavaScript, Typescript
- **Frameworks/Libraries:** React, React Native, Appium, React Testing Library
- **Tools/ IDE:** Figma, Git, JIRA, VS Code, IntelliJ, Github, Cursor

## WORK EXPERIENCE

**Dream11**  
**SDE-1 / SDET-1**

Nov 2021 - Present

- Led frontend development using JavaScript, ReactJS, and React Native, delivering scalable, production-ready features
- Owned end-to-end feature delivery, from requirement analysis to deployment
- Integrated SDKs and APIs (GraphQL/REST) in collaboration with backend teams
- Improved application performance, code quality, and maintainability through optimization and refactoring
- Reduced linting issues and enforced coding standards across the codebase
- Developed scripts to remove unused assets, reducing repository size and build time
- Collaborated with product managers, designers, and cross-functional teams to meet product requirements
- Implemented and maintained unit tests using Jest to ensure code reliability
- Partnered with QA/SDET teams to enhance testing strategies
- Contributed to mobile test automation using Java and Appium

**Zeus Learning**  
**Quality Engineer**

Jun 2019 - Oct 2021

- Experienced in Manual Testing with a strong grasp of various testing strategies like regression, smoke, and exploratory testing.
- Worked in a SaaS-based edu-tech company, ensuring high product reliability and user satisfaction.
- Collaborated with cross-functional teams to maintain top-notch product quality through all stages of development.
- Successfully delivered multiple high-quality product releases aligned with business goals and timelines.

## EDUCATION

---

### **B.E. Information Technology**

Vidyavardhini's college of engineering and technology  
8.9 CGPA

Aug 2015 - May 2019
